

TESTIMONIAL

Thomas J. Donohue

President and Chief Executive Officer -
Chamber of Commerce of
United States of America

"As the US pool of available workers continues to contract, companies are learning the bottom line benefits of hiring people with disabilities. Once an overlooked talent pool, people with disabilities are contributing to the American economy in ways never imagined in previous generations.

Through the efforts of the BLN and now the USBLN, we expect even greater opportunities for this segment of very able workers. The success of the USBLN will ensure that the 21st century workforce is diverse, inclusive and strong."
